

### **“Egg-on-a-stick sets a new Iowa State Fair record”**

**Urbandale, Iowa** (August 30, 2016) – Iowa’s egg farmers have something new to celebrate – a new Iowa State Fair record for eggs-on-a-stick.

A record number of 158,688 eggs were handed out to fairgoers. This breaks last year’s record by almost 12,000 eggs!

The popularity of the egg-on-a-stick increases every year and has become a fair favorite! After all, it is only 70 calories, provides 6 grams of protein and it is FREE!

Of course, we could not accomplish this large task without our volunteers. It takes a lot of work to distribute almost 160,000 eggs, and we are thankful to all of the people who volunteer at our booth so fairgoers can enjoy this tasty treat.

We’ll be back next year. Stop by the Agriculture Building, at the Iowa State Fair, and get your egg-on-a-stick!
